

20th Ieee/11th Nasa Goddard Conference on Mass Storage Systems and Technologies (Msst 2003): San Diego, California 7-10 April 2003

This book/CD-ROM package of material from an April 2003 conference sheds light on the latest research in requirements for data grids, IP access to remote data, reliability, storage area networks, network attached storage, file systems, and storage architectures. Some specific topics include high ban
