

## A Winters Child

The war was over, and Jeremy Swanfields family were eager to include his young widow in their prosperous, comfortable life. But between the demure bride, who had waved her husband of three days to the front, and the woman with three years of nursing behind her, lay an impassable gulf of experience. Clare Swanfield was fiercely determined to maintain her independence in the post-war world. Taking a job in the smart new hotel run by Kit Hardie - once the Swanfields boot-boy, now part of the new elite - was the first of many acts that would bring her into conflict with her husbands family - especially the coolly conventional Benedict.
