

Database Projects in Access for Advanced Level

The second edition of this popular textbook has been comprehensively updated and extended to cover the requirements of VCE ICT, in addition to those of A and AS level ICT. Microsoft Access is very suitable for VCE, A and AS level ICT projects, allowing the students to develop systems and customise them fully for the user. Now fully updated to cover Access XP, Database Projects in Access for Advanced Level covers everything a student needs to know to produce a high quality project covering: key features of the software; advanced features needed to gain the highest grades at this level, such as switchboards, subforms, macros, and action queries; How a system should be developed; And, How a project should be documented? The book also includes dozens of valuable tips to make Access easier.
