Christine Richards did something that most of us would never do; when given the option to walk away leaving her troubles behind, she took it. What happened after that, you would have to read to believe. But now stranded in the depths of Africa with no ID and no way home, she meets a man with exactly what she needs. Daniel is gorgeous, built and as sexy as hell. Being a member of an elite smokejumper squad he gives her a choice; she can take the train to the closest American Embassy where she will have to hide from the dangerous men who prey on travelers, or she can jump out of the plane with him and follow him to some of the strangest and most wonderful places on earth. She didn't intend to discover something about herself and life that would change her forever. But in his inescapably alpha male presence, doing things that others only dream about, he seduces her. And as readily as you reacting to cold water dripping down your naked body on a warm day, her body succumbs to his touch as he takes her on a truly erotic adventure.
