

Dawn Endeavor: Julians Jeopardy

Held prisoner in the Amazon jungle, Jules is rescued by an angel in white who heals with her hands and steals his heart. Only she's not real. She's just a dream... Genetic manipulation has created the first super soldier, the Circ. The second generation of Circs, able to transform into hulking, inhuman beasts at will and psychically gifted is much more dangerous than the first. Under Project Dawn Endeavor, the secret four-man team belongs to the mysterious Mrs. Sharpe who is bent on cleaning up science gone wrong around the globe on behalf of the United States government. But there's more to her agenda than patriotism. If only the team knew what she really had planned... As leader of the Circs of Dawn Endeavor, Julian Hawkins takes his responsibilities seriously. With two of his Circs now mated, life for his team is evolving, slowly but surely, into something with which Jules is unfamiliar, and he's not sure what to do about it. As if personal strife wasn't enough, an old enemy has Jules in his sights. As a prisoner in the remote Amazon jungle, Jules comes perilously close to dying when a woman made of light saves him. She has the purest aura he's ever seen, a body made for loving, and a heart made just for him. Except she's not real. But months after his rescue, when Mrs. Sharpe introduces the woman as a new part of the team, can he trust what he sees? Or is the woman there for another reason entirely, one that will put his team, and his heart, in dire jeopardy?
