

Dynamic Thought: Or The Law of Vibrant Energy

Dynamic Thought or the Law of Vibrant Energy, written in 1906 by W.W. Atkinson, takes relatively modern science alongside ancient occult teachings to discuss subjects often presented in Atkinsons magazine New Thought, and in many of the other books Atkinson authored. Dynamic Thought presents the ideas of a higher level of thinking and functioning, separate planes of the mind, and how forces in nature and the law of attraction can affect our actions, or the way others act toward us. Like much of his work, this book is designed for the student of psychological and philosophical thought. Cover photography by Paul Spremulli.
