

Forbidden Fantasy: Menage Erotica (Short Fling Fiction)

Sonna, you should come and kiss him too, and me. Sonnasia Uilora is the one lonely tech on an isolated space station. She's only twenty-three, but she's been alone so long she's starting to have ideas. Ideas about breaking the hunky clones she's supposed to be looking out for out of stasis and exploring some things that none of them have experienced before. In the years she's lived alone on the outpost she's had time to fantasize about doing anything and everything with them. And her fantasies are hot! Then, one day, the face that Sonnasia sees under glass isn't just another gorgeous clone, it's a man she used to know a long time ago. A man she cared for deeply who was torn away from her by the same corporation that keeps her isolated in the genetic database facility. Seeing him again is more than she can bear. Does the body in the tube belong to a clone, or the man she used to know? Now that he is back in her life, will she be able to live by the company's rules, or will she break them to fulfill her heart's desires? This 10,441 word short story is intended for an adult audience. (For more excerpts, take a peek inside the book. The contents are just too hot to post here!)
