

Technology Solutions for Today's Lawyer

Technology poses numerous challenges and opportunities for attorneys. Considerations range from the ethical to the practical, from the financial to the temporal. Lawyers are reliant upon technology for accounting and billing, document preparation and trial work, and keeping them competitive in the field. Whether you are a solo or work for a firm with an IT department, there is both a growing dependence on technology and a duty to preserve confidentiality. Technology Solutions for Today's Lawyer provides detailed information in basic terms to help navigate the challenges lawyers face in keeping abreast of technology and using it as a strategic tool within their practice. Technology Solutions for Today's Lawyer covers: Hardware choices Mobile equipment Software and its implementation Unified messaging Networking Cloud computing Security and backup

Last year, I wrote about the state of the industry panel at the 2016 Group Legal Services Association (GLSA) annual education conference.
