

# Jis-Kanji Character Recognition: Featuring the Gaiji Method/Book and Disk (Vnr Computer Library)

A book/disk guide to Japanese character recognition. The JIS X208 graphic character set is the Japanese equivalent to the ASCII character set used in the U.S. The book provides step-by-step instructions on how to locate the correct JIS-Kanji character required and the Hexidecimal code needed for specific encoding schemes. No prior knowledge of Japanese is necessary.
