Now that its legal, where can we buy it? At POT-CO, of course! From its humble beginnings as a hilarious idea during an elevator ride, The Official Pot-Co Cannabis Wholesale Superstore Coloring Book is now a popular graphic commentary on the passage of Washington States Initiative 502 in 2012. This book has it all, from promotional ads for Mom and Pop Pot Shops to exterior and interior views of a members- only superstore with everything under one roof, a veritable One-Stop Pot Shop. For the serious minded, theres a Wikipedia-based description of the initiative and its intended impact. Each page is a masterpiece, designed for mature audiences. Its up to YOU to create finished images that are suitable for framing. No matter your age, political persuasion or personal opinion, youll appreciate the fertile imagination and talent of Jim Fetter, renowned professional artist (who also happens to be our county process server). The Official Pot-Co Cannabis Wholesale Superstore Coloring Book is dedicated to those who will shape the future of this social experiment. Were all in this together, folks. But wait! Theres more! With so many daily news feeds, media spin and rampant rumors, Volume 2 is already in development.
