Use these Tips to Minecraft Survival - The Beginning. This can make having a sure fire way to survive Minecraft be kind of bleak in terms of what works and what . Here Are Some Tips and Tricks for New Minecraft XBLA Players - 10 min - Uploaded by JeracraftMinecraft: Decorations Build Tips & Tricks! Over 20 Minecraft build tricks & tips using a 4 days ago First, dig a 1?2 hole down to bedrock level. Remember not to dig straight below yourself. If you hit non-flowing lava, stop your mineshaft, or try and find a way around the lava. Once you have done that, (or as you go down) place ladders along one side so that you can climb back out of the hole. Torches can hold up sand and gravel. Funny how the Torch can help destroy and help build. If you place a block of sand or gravel on top of a wall-mounted torch, it will not fall or break. If you for some reason only have Sand to build with and want to have floating sections, this trick will come in handy. - 5 min - Uploaded by AntVenom10 SECRET Minecraft Survival Tips! AntVenom.
