

Getting to Know ArcGIS ModelBuilder

Getting to Know ArcGIS ModelBuilder teaches readers how to develop and run reusable geoprocessing workflows and models in ModelBuilder, a visual programming technology available in ArcGIS. Getting to Know ArcGIS ModelBuilder presents basic and more complex concepts and demonstrates best practices through hands-on exercises. Divided into seven chapters addressing model basics interactive models, flow control, multiple inputs, model iterations, model environment, and building documentation, this book fosters a comprehensive knowledge of ModelBuilder for the classroom and for self-learners. All the data needed for the exercises, as well as examples of models, Python scripts, and custom applications are included in a companion DVD.
